NUMBER 24

Joe Lesyna Elected To Head Miner Staff

ELECTION OF OFFICERS PLACES DON WILSON AS NEW BUSINESS MANAGER

by Chas Almstedt

At the annual election of officers of the Senior Board of the Miner, held on Thursday, March 25, Joe Lesyna, former Managing Editor, was elected editor to head the '54-'55 Miner Staff. Joe, who is replacing Dan Grotke, has served on the Miner Board for 3 years, and is the newly elected pledge-master of Theta Kappa Phi Fraternity. He is also a member of the S.A.E., Secretary-treasurer of the Radio Club, and he has been on the Rollamo Board for 3 years. Joe is a Junior in the Mechanical Engineering Department, and is from St. Louis, Missouri.

Replacing Don Bogue as Business Manager is Don Wilson, from Granite City, Ill. Don is a Sophomore in the Electrical Engineering Department, and is a member of the A.I.E.E., and is the steward of Sigma Phi Epsilon Fraternity.

Dick Douglass takes over the job of Managing Editor is a sophomore in the Chem. Eng. Dept., and has been on the Miner Board for 2 years. Dick, who comes from Jefferson City, Mo., is the Treasurer of Theta Kappa Phi Fraternity, a member of Alpha Chi Sigma, honorary Chemistry Fraternity, The A.I.Ch.E., the Miner and Rollamo Boards, and the IFC. Dick formerly held the post of Associate Editor.

The new Associate Editor is Jerry McCoy of Tau Kappa Epsilon Fraternity. Jerry, who is a sophomore in the Chem. Department comes from Sikeston, Mo. He is a member of the "M" Club and is the Vice-President of TKE.

Campbell Barnds takes over the job of securing advertisements for The Miner. The new Advertising Editor is a member of Pi Kappa Alpha Fraternity and is House Manager. He is a Junior in the Electrical Engineering Department and lives in Kansas City. Campbell belongs to Eta Kappa Nu, honorary E.E. Fraternity, the A.I.E.E. (Treasurer), and has been on the Miner Staff for 1 year.

Students will receive their Miners with the help of Norman Hart, newly elected Circulation manager. Norm is a sophomore in the Mechanical Engineering Department and hails from California. He is a member of Kappa Sigma Fraternity, S.A.E., and has been on the Miner and Rollamo boards for 2 years.

The new Secretary is Wally Schramm of Sigma Phi Epsilon Fraternity. Wally is a sophomore in the E.E. Department, and comes from Farmington, Mo. He is a member of the A.I.E.E., APO, Gamma Delta, and has been on the Miner Board for 1 year.

All sporting events will be held under the watchful eye of Nick Cooksey, of Tau Kappa Epsilon. Nick is from Marion, Ill., and is a Sophomore in the Mining Department. He is a member of the A.I.M.E., a junior member of the St. Pat's board, and is on the social committee and also Chaplain of TKE.

Frank Ellis of Kappa Sigma takes over the job of Exchange Editor, replacing Jim Elswick. Frank, who is from Purty, Mo., is a sophomore in the Mechanical Engineering Department. He is on the Miner and Rollamo Boards and is Asst. Treasurer of Kappa Sigma.

The new Features Editor is Dennis Mason of Kappa Alpha. Dennis is a Freshman in the Electrical Engineering Department. He is the reporter for the Glee Club, a member of the A.I.E.E., and Corresponding Secretary for K. He lives in Brunswick, Mo.

JOE LESYNA

COLOR MOVIES TO BE SHOWN TONIGHT DURING FELLOWSHIP MEETING

France comes to Rolla. This is the treat which is offered at the International Fellowship's regular meeting tonight at 7:30 p.m. at the Mining Engineering Building on the MSM campus. At the meeting the Fellowship will present Mr. Charles Guichard, French student now studying at MSM, narrating many scenic slides of Brittany, Alsace, and the tourist attractions of southern France.

Following Mr. Guichard's talk the group will see several color movies about France. The first color movie, "Flight to Paris", will tour the famous sights of France's capital city and the nearby community of Versailles, where so much history has been made throughout the years. The second color movie to be shown to the group is "Flight to the Riviera". This thirty minute movie shows the views to be seen in the famous beach resort area of Europe. The meeting Friday will present one of the most colorful collection of slides and movies to be shown by the Fellowship this semester.

At the meeting final plans will also be made for the Annual Spring Picnic, on which the group will visit a popular Missouri picnic area. A cordial invitation is extended to all those

Talk On T.C.P. Given By V. E. Yust Wed. Night at SAE Meeting

Last Wednesday night, April 7, Mr. V. E. Yust of the Shell Oil Company in Wood River, Illinois presented a very informative talk on "T.C.P." for the Student Branch of the Society of Automotive Engineers here on the campus.

During the meeting which took place in the Mining Building Auditorium, Mr. Yust presented his talk supplemented with slides on the tests and results made on the Shell Oil Company's new gasoline additive.

Following his talk a question and answer session was held during which many interesting points were brought out and clarified.

If you have an interest in the automotive or aircraft field, whether you are a member of the S.A.E. or not, why don't you attend our next meeting on April 21, when a speaker from McDonnell Aircraft Company will speak on their new Convertible Plane.

SIGMA XI CHAPTER AND 70 MEMBERS INSTALLED BY U. OF MO. CHAPTER

On April 7, 1954, a chapter of the Society of Sigma Xi was installed on the campus of the Missouri School of Mines and Metallurgy. The installation was carried out by the University of Missouri Chapter of Sigma Xi.

The Object of this Society is to encourage original investigation in science, pure and applied. It is a high honor for the Missouri School of Mines and Metallurgy to have a chapter on its campus and it indicates that research is an important part of the MSM program. There are about 120 chapters of Sigma Xi on the leading college and university campuses in the United States.

About seventy members of the chapter were installed. These included members from the faculty and graduate students of M. S. M., State Geological Survey, U. S. Geological Survey, U. S. Bureau of Mines, and independent researchers who have been elected to Sigma Xi by other chapters.

The complete installation plans were divided into four parts. The business meeting for all members of the local chapter was held at 11 o'clock in room 107, Mining Building. The formal installation took place at 3:00 p.m. in Parker Hall auditorium. All students, faculty members, and townspeople were invited to this part of the program. The faculty voted to dismiss all classes at 3:00 p.m. so that the students could attend. At 4:30 p.m. a tea for all guests and friends was held at Dean Wilson's home. The final part of the program was a dinner and speech at the Edwin Long Dining Room. All faculty members, their wives, and guests were invited to the dinner.

At 8 o'clock in the Edwin Long Dining Room the installation address was given by Dr. Joseph C. Boyce, Associate Director of Argonne National Laboratory. The title of his lecture was "Some Problems in Reactor Engineering." Dr. Boyce discussed some very recently declassified material in his interesting and informative lecture on this timely subject in the field of engineering.

SIGMA PI SIGMA HOLDS ELECTIONS FOLLOWING FORMAL INITIATION

The honorary physics society, Sigma Pi Sigma, held a formal initiation Sunday, March 28, at 5:00 p.m. in room 103, Norwood Hall. The following persons were formally initiated into the local chapter: Mr. Malcolm B. Cole; Dr. V. G. Gabriel; Dr. Paul G. Herold; Dr. Charles A. Johnson; Mr. Arthur Reetz; Mr. Bernard Riggs; R. P. Abendroth; Howard Brown; David Gould; and Paul Orth.

Following the initiation of the new members the election of officers was held at which time these members were elected: President, Edward Sickafus; Vice President, Kenneth Mann; Secretary, Paul Orth; Treasurer, Victor Koirtzyhann.

Sunday evening at 6:30 a banquet was held in the Pine Room for the new members and guests. Dr. William James, a member of Sigma Pi Sigma from Tufts College and now a member of the Missouri School of Mines Chemistry Department, was the guest speaker. His topic was "Teaching Of Science In High Schools."

Thursday, April 15 — Lion Oil Co. Min.-Petr., Ch.E. and Geol.

"Pygmalion," Famous Comedy, To Be Given By Dublin Players

The Dublin Players, the celebrated company of actors from Ireland appearing here on Monday night, April 12, at 8:00 p.m. in Parker Hall will present the famous comedy, "Pygmalion" by George Bernard Shaw.

This company, made up of the finest actors from Ireland's famous Abbey and Gate Theatres, is now completing another leg of its coast to coast tour of more than 100 American cities presenting great Irish and English classics as well as modern plays to the rave reviews of critics and the enthusiasm of Audiences.

Rated as "top entertainment" by Variety, the trade paper of the Theatre, the Dublin troupe has gathered praise for itself from top critics and columnists. In their television appearances in New York, notably Ed Sullivan's "Toast of the Town" on CBS-TV, the company gained such unusual response that they were asked by Mr. Sullivan to appear again several times on his show.

Audiences from Houston to Boston have applauded their repertoire of plays by Shaw, O'Casey, Shakespeare, Ibsen, Synge, Chekhov and Christopher Fry. This repertoire represents the greatest plays of the past and present day in unparalleled performances.

The Dublin Players was originally formed by Ronald Ibbs in Ireland in 1947 under the name of the Ronald Ibbs Company, and was designed to be a touring company in Ireland which would play a season each year in Dublin. Previous to this time, Mr. Ibbs had for nine years been leading man at the Gate Theatre in the Earl of Longford's Company there with his wife, Maureen Halligan. Miss Halligan joined her husband in establishing his company, and had not only been a leading actress with the company, but has directed many of the productions. The new Ibbs Company was an immediate success both on tour and during its Dublin seasons, and the new actor-actress managerial team proved itself to be a worthy addition to Ireland's rich theatrical culture.

After two years of playing in Ireland, the Ibbs Company was seen in Ireland by the famed critic and dramatist, Eric Bentley, who persuaded Mr. Ibbs to take his company to the United States for a tour. The original tour was so successful, that it had to be extended for several weeks, and on this their second tour of the United States their program has been expanded to include more than 100 major cities.

SCENE FROM "PYGMALION"

MSM FACULTY WILL BE HOST TO MO.-ARK. SECTION OF ASCE SAT.

Dean Wilson and members of the faculty of M.S.M. will be hosts to the Missouri-Arkansas section of the American Society for Engineering Education beginning tomorrow morning at 8:30 A.M. with registration in Parker Hall.

The purpose of the Society is the advancement of education in all its functions which pertain to engineering and allied branches of science and technology, including the processes of teaching and learning, research, extension services, and public relations.

There will be representatives from M.S.M., St. Louis U., Missouri U., Washington U., University of Arkansas, Warrensburg, Hannibal Le Grange, Lincoln U., and Cape Girardeau.

This afternoon at 1:00 P.M., the Executive Council of the national society will have a meeting in Parker Hall. Those members present will be: L. E. Grinter, President; B. R. Teare, Jr., Vice President; W. C. White, Vice President; W. L. Everitt, Vice President; E. A. Walker, Vice President; and A. B. Bronwell, Secretary.

WORMS - BOTH LARGE & SMALL - ABOUND WHILE TEKES REPLANT SAHARA

The Teke house has finally adorned its naked front lawn with an abundance of grass seed. However, this action was fully prompted by a usurping ambition. Two of the boys were sitting around, one sunny day last week, arguing as to the number of worms a cubic foot of Teke soil contained. The discussion terminated with the problem still unsolved. Each anxious to prove his point, they proceeded to mutilate the little grass we did have. Working all day and proceeding into the next, they collected a sum total of 749 of the slimy creatures. Now they are undecided as to the amount of soil that was dug up. To proceed with our narration after the great upheaval, the lawn looked slightly disheveled — to say the least about the most. Thus came the decision to try and grow green hair on our brown billiard ball. After the purchase of some material, incorrectly labeled good soil, some seed, and vigor, the pledges and some actives proceeded to till, level out, and plant. Now, if Ole Mom Nature is obliging and our K-9 boarders don't take a notion to do a little treasure hunting, our barren waste will soon wear a chapeau of green.

History was made this week as that protégé of the Nomads, "Ten Hut" Emison, spent his first full weekend in Rolla since he's coming back to school. Added to the books, also, was the fact that all the boys in the room across the hall have made their grade points at mid.

We have it from a reliable source that after a successful excursion to Mo. Bap. last Saturday, our boy Jerry is in love again. The trip paid off double for Frater McCoy as the pledges were foiled in their attempt to bruise his pride with a paddling orgy. Saturday was Mac's birthday. Love is quite a birthday present.

Th-Th-That's all folks!

Fall Pre-Registration To Begin on April 12

D. V. Terrell, National President of ASCE, Speaks at Harris Hall to MSM Chapter

Last Wednesday night, March 31, the Mo. Mines Chapter in a joint meeting with the Mid-Missouri Section of ASCE had as its guest speaker, Mr. D. V. Terrell, the National President of ASCE. The evening started with a dinner at the Edwin Long Hotel which was attended by about fifty members and guests. Following this, everyone adjourned to Harris Hall for the business meeting. Mr. Terrell was introduced by Professor Carlton who had to take quite a while to list the many accomplishments attained by Mr. Terrell and the many honors bestowed upon him. His talk, supplemented by many humorous remarks, was enjoyed by the members of both groups and an interesting question and answer period followed. We were all very proud and honored to have Mr. Terrell as our guest. The usual refreshments were served after the business meeting was concluded.

The next meeting of ASCE will be held on April 14, at which time a panel of contractors will be on hand to talk about the contracting business and especially that carried on with the Missouri State Highway Commission. We urge all of you to attend this meeting as it will be most interesting and enjoyable.

SKUBIC TAKES REINS AS THETA KAPS HOLD ELECTION OF OFFICERS

By Jerry Spann

Monday evening marked the election of the officers to lead Theta Kappa Phi in the next year. The results show Ray Skubic as the new President; Mike Stearman, Vice-President; Dick Douglass, Treasurer; Sam Gulotta, Secretary; Joe Lesyna, Pledge Manager; Bill Zickel, Steward.

What with the passing of mid the Theta Kaps saw fit to egress from their shells to places elsewhere. In other words, most of the troops bugged out for the weekend. The guys that stayed around were apparently in no way bored. Bros. Hanss and Goeddel went on a fishing excursion to Piedmont, Mo., where Bob caught himself a mermaid, of all things. He threw it back in, because of course mermaids are theoretically impossible, and besides he had the wrong kind of line. About all Goeddel brought back was a couple of gags about frog-giggers.

The activities of the non-commuters were quite diversified; Brother Fitz drove his Chevy out Highway 17 to Big Piney Cave where about six of the Cow House Boys went spelunking all over the place.

The last couple of weeks have been fairly successful in regard to the Intramurals. We just barely missed the bowling trophy with the loss of a very close game to Beta Sig. Sam Gulotta sparked the team on to the finals, and received the award for having improved his average the most. The Theta Kaps are also right at the top in the current volleyball tournament, and are counting on that trophy. The softball team is coming around nicely, and if the fellows perform as well in the games as they did in the practices, the trophy should be a lead pipe cinch.

STUDENTS TO COMPLETE PREREGISTRATION WITH DEPARTMENT CHAIRMAN

Preregistration for the fall semester will be held during the period April 12 to 17 inclusive. The following program will be followed:

Seniors and Graduate Students will start preregistration on April 12.

Juniors will start preregistration on April 13.

All others will start preregistration on April 14.

Preregistration will close on April 17 at noon.

The classifications listed above are those which the student will have next fall, assuming he passes all of his current schedule.

The necessary papers will be given to the department chairman the evening preceding the beginning of each of the registration periods listed above. Students will complete their preregistration with the department chairmen and then bring their schedules to the sectioning committee in Parker Hall and remain with the schedule until it has been sectioned. Closed sections will be posted on the blackboard in Parker Hall as in the past.

Advisers are as follows:
All Miners—Dr. Forrester — 101 Mining Bldg.
Metallurgists—Dr. Schlechten — 102 Met. Bldg.
Civil Engineers—Prof. Butler — 105 Harris Hall.
Mechanical Engineers — Dr. Miles—108 Mechanical Hall
Electrical Engineers — Prof. Lovett—109 Norwood Hall.
Chemical Engineers — Dr. Schrenk—101 Chem. Engr. Hall.
Ceramic Engineers—Dr. Herold — 104 Met. Bldg.
Science, Physics Majors—Dr. Fuller—101 Norwood Hall.
Science, Geology Majors — Dr. Grawe — 208 Norwood Hall.
Unclassified Students — Prof. Lloyd—101 Rolla Bldg.

FRESHMEN:
Students taking essentially a second semester Freshman schedule will pre-register through the Registrar's Office, and not through the advisors listed above.

Pre-registration will be conducted in the same manner as in the past, and the schedules turned in first will get their choice of sections unless changes are necessary to balance sections.

Students must bring their completed schedules from their advisors to Sectioning Clerks in Parker Hall to check for closed sections. The pre-registration schedule will be the student's official schedule unless he fails or drops some subject after pre-registration, in which case he may have to make a new schedule on registration day, on September 13, 1954.

PREREQUISITES:
In preregistering, check prerequisites as shown in the Schedule of Classes. Those who do not have prerequisites and still want to take a course must secure permission from the Curricula Committee of which Dr. W. T. Schrenk is Chairman. Necessary forms for this request may be secured in the Registrar's Office. Those who pre-register without this permission will be dropped from the course as soon as prerequisites are checked. The student should take care of this at the time of preregistering and save trouble and inconvenience for himself and others. If the student fails a prerequisite course at the end of the semester, he should adjust his schedule at the time of final registration.

(Continued on Page 4)

THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla Mo., every Friday during the school year. Entered as second class matter February 8, 1945 at the Post Office at Rolla, Mo. under the Act of March 3, 1879.

Subscription Price \$1.00 per Semester. (Featuring Activities of Students and Faculty of M.S.M.)

EDITORIAL

In this the maiden issue of the MINER under the newly-elected Senior Board, we would like to present our objectives for the future.

Within the limits of human error we will try to maintain an unbiased stand and give complete coverage on all news of general interest to the students. In addition, we will strive to continually improve and expand the features of the paper so that it may be interesting to all our readers.

We hope that our aims are not too "high sounding" because we mean them in all sincerity. Please bear with us during our first few issues and forgive us if we sometimes fall short of these aims.

We are open to constructive criticism at all times and hope that you will take active interest in "your" paper.

The Ash Pit

It is the general consensus of outsiders that Miners are a crafty lot. As a general rule this is correct. Their ingeniousness is normally unmatched except for a few very rare exceptions. One of these rare exceptions exists in the case of the thieves who stole a storekeeper's safe in Ripley, New York. They left a note saying that if the combination appeared in the classified ads of a local newspaper within the next few days, that they would not use nitroglycerine on the safe. The storekeeper did so, and within a few days the safe was returned empty but unharmed. This shows that even a common thief has a human streak in him.

Many people assert that Miners are a gullible lot. One of the prime examples of this is the fact that many men from MSM actually believed some of the hokum put out in the last MINER. Now, back to ingenuousness. Many Miners are very choosy about their recreation. So are many thieves. Near Steubenville, Ohio, crooks stole a mile of railroad track from a Pennsylvania Railroad spur. H. A. Fitzgerald constructed a 158-

apartment building in Chicago. While it was still unfinished, thieves entered and stole 158 bathtubs. In Miami, the Homestead Machinery Company reported the theft of a 10-ton steamroller. In Little Falls, New York, James Hallinan reported the theft of a granite monument weighing 1,600 lbs. As to the height of nerve, two burglars, posing as repairmen, entered the basement of a Kansas City house, dismantled the heating plant, and removed it by truck. Honesty is something Miners are very seldom accused of. More often the insinuation is the opposite extreme. Pertinent at this time is the story about the River Edge, N. J., policeman who arrested a parson for not having his driver's license with him while piloting a car. After writing the preacher a ticket, the parson asked him a personal question—"Did he (the patrolman) have his license with him?" He did not. All he could do was stand by while the parson called another cop who gave him a ticket. These digs at the outside world are not reflective upon Miners in general, any way.

DONALD PUYEAR WINS FIRST PRIZE IN PHOTO CONTEST ON CAMPUS

The judging of the prints for the photo club all-campus contest was held in Parker Hall on the 13th of last month.

The judges were Mrs. A. C. Hailey, teacher of arts at the Rolla High School; Mr. Noel Hubbard, Registrar of the Missouri School of Mines; Mr. D. H. Erkiletian, professor of mathematics at MSM; and Mr. G. W. Parish, president of MSM Photo Club.

In the amateur class, Donald Puyear won the first prize of \$7.50, and Leroy Wood the second prize of \$5.00. In the beginners class, Bob Schneider won the first prize of \$3.00. The second prize of \$2.00 went to Papken Zarzavatjan, and the third prize of \$1.00 to Roy Nyman.

Those who would like to have their prints returned (except the winning prints) may pick them up from Mr. Erkiletian in the Old Chemical Engineering Building. The winning prints will be exhibited in Norwood Hall during the month of April.

"May I have this dance?" asked the freshman.

"I'm sorry, but I never dance with a child," she said with a superior sneer.

"Oh, a thousand pardons," he said. "I didn't know your condition."

C. S. JOHNSON WINS CONTEST WITH PAPER "MAGNETIC AMPLIFIER"

Clarence Scott Johnson, a senior Physics major, won the M. S. M. student papers contest sponsored by A.I.E.E.-I.R.E. The title of his paper was "Principles of the Magnetic Amplifier." Second place went to Martin Barylski, a senior majoring in Electrical Engineering. The title of his paper was "Stereophonic and Binaural Sound." The first and second place prizes consisted of a 10 dollar cash award and a textbook on industrial electronics respectively. Since one of the requirements for national competition is that the student be an E.E. major, Martin Barylski's paper will be entered in the district A.I.E.E. contest at Manhattan Kansas.

The second part of the program consisted of a 55-minute slide and tape recording from the Bell Labs entitled "The Physics of Music and Hearing." The date set for the annual banquet is Thursday, May 13th. Although there was some discussion about the spring outing, no definite date has been set.

"You remind me of a can of beer in my neighbor's icebox."
"Just what do you mean?"
"You're so cold and distant."

Doctor: "You must avoid all forms of excitement."
Man: "Can I look at them on the street?"

America's Knights of the Sky...

The Spartan Band that held the pass,
The Knights of Arthur's train
The Light Brigade that charged the guns,
Across the battle plain
Can claim no greater glory than
The dedicated few
Who wear the Wings of Silver
... on a field of Air Force Blue.

**For Fellowship...High Adventure...and a Proud Mission...
wear the wings of the U. S. Air Force!**

In days gone by, young men in shining armor ruled the age. Today, a new kind of man rules the age—America's Knights of the Sky, the Air Force Pilots! They rule from on high, in flashing silver-winged Air Force jets... a gallant band that all America looks up to! Like the Knights of old, they are few in number, but they represent their Nation's greatest strength.

If you are single, between the ages of 19 and 26½, you can join this select flying team and serve with the finest. You will be given the best jet training in the world, and

graduate as an Air Force Lieutenant earning \$5,000 a year. Your silver wings will mark you as one of the chosen few who ride the skies in Air Force jets.

As an Air Force pilot, your kingdom is space—a jet is your charger and your mission is the highest. You are a key defender of the American faith, with a guaranteed future both in military and commercial aviation.

Join America's Knights of the Sky, new men of a new age. Bean Aviation Cadet! For further information, fill out this coupon.

Miner Trackmen Chalk Up Two Wins In Succession

Tennis Team Claims Victories at Hands of Drury and Harris Here

The Miners tennis team opened their season with a 5 to 2 win over Drury on the M.S.M. courts.

In the singles department the netmen scored 3 wins and 2 losses. The two doubles teams were undefeated.

John Miles, first singles man, had little trouble defeating Bill Hardie, 6-0, 6-0. Charles Sauselle, in the second singles spot, also won in two straight sets over Bud Moline by the scores of 6-4, 6-3.

Third singles man, Bob Helm dropped two sets to John Wiest for one of our two losses to Drury.

Freshman Lowell Seibel playing fourth singles defeated Bob Grassele in easy sets of 6-1, 6-1. Our only other loss came when Dave Shannahan of Drury defeated Harold Bierston 6-3, 6-3.

In the doubles matches MSM was undefeated. Miles and Sauselle doubling together beat Hardie and Moline by close sets of 6-4 and 10-8.

Gus Link and Edwin Girens beat Drury's second double team in straight sets of 6-3, 6-3.

The following week, on April 5, the MSM netmen were again the victors as they defeated Harris Teachers by the score of 6 matches to 3. The Miners won 4 of the six sets in the singles division, and captured 2 of 3 sets in the doubles.

Lowell Seibel won the most decisive victory for the Miners by winning the first 2 sets of his match against Harris' Phil O'Donnell 6-0, 6-0. The greatest victory by a Harris player was Dick Cadice's 6-1, 6-3 win over Neil Givens.

The match winner for the Harris match are as follows:

Singles

For MSM

John Miles over Bill Valentine
Charles Sauselle over Allen Edmondson.

Lowell Seibel over Phil O'Donnell.

Don Roth over Dolph Von Arx

For Harris
Dick Cadice over Neil Givens
Dale Martin over Gus Link

Doubles

For MSM

Miles, Sauselle over Valentine
Cadice.

Link, Godzwon over O'Donnell,
Von Arx.

For Harris
Edmondson, Martin over Seibel,
Roth.

New Miner: Say, how is the woman situation at MSM?

Battle-weary Senior: My boy, never have so many pursued so few with so much and obtained so little.

By Charles Hunter

The biggest news this week is the Olson-Gavilan fight. The fight was a show of power all the way. Olson was obviously in the best condition of his career. His punching and jabbing were clean, sharp, and hard. He seemingly was in as good a condition when the fight was over as when it started. Both fighters were dancing in their corners, however, after the long fifteen round contest. Gavilan's eye was cut in the latter part of the fight, but Olson could take no definite advantage of the situation. He concentrated most of his blows in that direction, but the kid, being no newcomer to the ring, protected it beautifully.

Gavilan was a much changed fighter in this bout than in previous fights. It was very certain that he wanted to win this fight even more than a lot of people thought. The dancing and showmanship was not present, but the most shocking of all was the absence of the bolo punch. He threw two or three half-hearted bolos, but they seemed to have little effect. Bobo was never in too much trouble which might explain why there were so few thrown by the kid. With these warm days coming along, many young athletes turn to the cinder track. Currently there is the finest crop of runners, jumpers and throwers since the days of Jim Thorpe.

Track is one of the few major sports that has remained relatively unprofessional in this country. The Midwest is the location of much of this increased activity. The Texas Relays were held this past weekend in Austin, Texas.

The Relays boast one of the biggest entry lists in its 27-year history, with 1201 athletes in the first big outdoor classic of season.

The Ashland, Kansas cowboy, Wes Santee, continued to show his heels to all opposition as he anchored the University of Kansas sprint medley relay team to a new world's record 3:20.2. The old record was 3:22.7, established by New York University in 1950. It will be interesting to see what he does in the Kansas Relays, where he will make another attempt to reach the mystic four minute mile.

The next Olympic games, which are to be held in 1956 in Australia, should be one of the sporting spectacles of the century. It is going to be the greatest show of middle-distance strength in the history of track. There are no less than five possible world record establishments in the 1,000 meter run. From here, however, it looks like Wes Santee has the inside track on the other contenders.

GOLFERS CLAIM DUAL VICTORY OVER DRURY BOTH HERE AND AWAY

The Miner golfers got off to a fast start by defeating Drury College twice in the first two meets. The first meet, held March 27, at the MSM course, found the Miner's Ken Lanning took the individual honors for the day as he understroked Bob of Drury 64-75. In the other pairings, McCullough of MSM defeated Twig of Drury 69-74, Huffman, MSM, outshot Benage, Drury, 70-75, and Penn of MSM underscored Gay of Drury 70-80, giving the Miner team a perfect day. In this meet, the Miner foursome set a course record for a four-man team by totalling 273 points to compare with Drury's 306.

The second meet, held at Springfield on April 3, was almost a repeat as the Miner golfers defeated the Drury boys on every tour except one. Again, the Miner's Lanning copped the day's low-scoring honors as he downed Paris of Drury, 71 strokes to 80. In the other half of the doubles match, Benage of Drury undershot Penn of MSM 75-80. However, this was not a wide enough margin. Lanning and Penn together totalled 151 strokes against 155 shot by Benage and Paris; few enough to give the Miner duet the edge in the round. In the other match, McCullough's score of 78 was four strokes under the 82 shot by Gay of Drury, and Huffman of MSM went two strokes under Ueiderstedt of Drury, 83-85, as Huffman and McCullough took the match from the Drury pair 161 to 167. On the point system, MSM tallied 13½ points to Drury's 4½.

Traveler (to waitress): I see tipping is forbidden here.

Waitress: Bless your heart. Apples were forbidden in the Garden, too.

Cindermen Win Decisive Victory Over Drury and Harris Teachers Colleges

by Rit Zdanis

The Miner track team literally bowled over Harris Teachers College at Jackling Field, last Saturday, as they came out on the heavy end of a 104½ to a 26½ point score. The men from MSM were awarded the first

LAST WEEK'S RESULTS:

March 27th, the Drury track team was defeated at the hands of the Miners. At the end of the fifteen events the Tally Sheet read — Rolla 93, Drury 38.

The men from the Mines captured all three places in the Shot Put with Ashley turning in a winning toss of 39' 11.25". Roerman and R. Williams took second and third, respectively. Haworth of Harris won the Discus Throw with a 117.45' heave, while R. Williams and O'Brien, both of M.S.M., finished in second and third places.

The Broad Jump added 9 more points to the Miner's score as Eschbaugh, Oetting, and Feaster wrapped up all three positions. Eschbaugh was high man for the day with 15 points. He placed first in the 100 yd. Dash and the 220 yd. Run also.

Pete Weitzel accumulated 13 points having placed first in the Javelin Throw and the Low Hurdles. Pete took the second slot in the High Hurdles. Green and Gribble of the Miners took all the other berths in the Low and High Hurdles. It was Green who took first and Gribble who placed third in the H.H. Gribble placed second and Green took third in the L. H.

Feaster of MSM participated in three events, taking second place in both the 100 yd. Dash and the 220 yd. Run. Taking the third slot in the Broad Jump brought Feaster's total up to 7 points, which made him third highest point earner for the Miners.

Drury captured two out of the three places in the Mile with Crosby turning in a winning score of 4:53.6. Jurenka of MSM placed second, while McClain of Harris took third. Lyon of Drury leaped 5' 7" to take the High Jump. More and events of MSM placed second and third respectively.

B. Williams broke the wire with a score of :52.8 to win the 440 with Newkirk and Wiggins, both of Harris, taking second and third. The Miners didn't place at all in the 2 mile, but retaliated on the Pole Vault with North, Kreder, and Oetting going over the bar for M.S.M. North's winning score was an even twelve feet. The 880 was won by Miner Anderson with a winning score of 2:07.6. The Drury team took second and third spots.

The Miner's Mile Relay team of Williams, Smith, Fitzgerald, and Anderson — an the four laps in 3:38.8 to win. From the results of this first meet it looks as if the men from the Mines are headed for an enviable record this season.

of the Miners took third place.

The Miners took all three berths in the Low Hurdles. Val Gribble placed first with a winning time of 26.7". Weitzel and Green walked away with second and third respectively. The High Hurdles saw Green taking the win for the Miners with a winning time of 17.4", while Frank of Harris placed second and Weitzel of M.S.M. took third.

The Javelin Throw was won by Rolla's Murphy with a winning distance of 151.9'. Weitzel came up with second place, while Frank placed third.

The last event, the Mile Relay, was won easily by the men of MSM. Winning time was three minutes and forty-nine seconds. The contest may have been a on sided affair with the Miners on the heavy end, but it was, nevertheless, an enjoyable one to all spectators.

Bob Williams

place berths in all but two events.

Delia of Harris, high point man of the day with a total of 13 points, took first place in the Mile with a winning time of 5:3. Delia also captured the Broad Jump event with a leap of 20' 4.75". The Harris boy placed second in the 880 yd. Run being beat by Anderson of the Miners. Ashley was high man for MSM with 10 points. Miner Ashley took first in both the Discus and Shot Put events with a 120.9' and a 41' 8½" respectively. Williams, also from MSM, took second in both of these events.

In the High Jump, Evans took first with a winning leap of 5' 6.75". Moore tied for the second place slot with Soty of Harris. The Miners monopolized the Pole Vault with North, Kreder, and Edding taking the berths in order. The winning leap was 11' even.

Clodfelter and Rose, both Miners, placed second and third, respectively, in the Mile. However, the positions were reversed in the Two Mile as Rose trotted in with a winning time of 11' 35.2" as Clodfelter took a close second vainly trying to keep abreast. Both men lapped Kroft of Harris on the last lap around the quarter mile track.

The 220 yd. Run was, perhaps, the thriller of the day with Miner Williams edging Roger Feaster out by inches for a winning time of :22.7. Williams also took first berth in the 440 with a 53.8" winning time. In this event Fitzgerald of the Miners made his bid for second good, while Harris Teachers took third. Feaster stretched his to take the 100 yd. Dash with a 10.2" winning run. Belobrojela of Harris glided in to second spot and Fred Smith

Practically everything but the Elms!

WE can't promise you college scenery at General Motors.

But as a graduate engineer you can find a lot of things at GM to remind you of college days—more important than elms or ivy.

You'll find men to work with and to work under who have as deep a faith in science, and the contributions science can make to human welfare, as your own college professor.

You'll find an atmosphere congenial to the scientific mind as is the atmosphere of your own engineering school.

For General Motors believes that only in this kind of intellectual climate can an engineer function at his best. And thus best help General Motors in its continuing pursuit of more and better things for more people.

GENERAL MOTORS CORPORATION

Personnel Staff, Detroit 2, Michigan

Add this to GM's wealth of equipment and resources—our wide variety of engineering activities—and you can see why opportunity at GM is as high, wide and handsome as you have the ability to make it.

Why not request your College Placement Officer to arrange an interview with our GM College Representative, the next time he visits your campus. Or write us directly.

BETA SIGS MOURN LOSS OF SALAMANDER - MAKE READY FOR THE COMING "GOLD ROSE" DANCE

"Ah spring! Once again mid has come and gone and everyone feels like studying instead of going into St. Louis on week-ends.

Our volleyball team won two games before bowing out of the tourney, and we wish better luck to our softball, horseshoe, and tennis teams.

The fellows who went to the convention had quite a bit to say about it. Some good and some bad. It seems our scrapbook didn't quite take top honors. But we'll have the convention down here in Rolla next year, and we're really planning to have a rip-snorter.

We would like to take a little time here to observe a moment of silence for our little Salamander Jr., who met a cruel and mysterious end sometime this past week. When we find the dirty under-handed culprit it's I'm sure he'll have a reward coming to him for the deed.

M-m-mm, home-made fudge. Good, huh Ab? With about as much secrecy as an atom blast, Reinhard received a private package from we all know who, last Sunday night. In it, what we suspected all along, goodies! And she's got a car, too.

Operation Big Move took place this week. It's getting hard to remember who is in which room anymore. There have been, however, two or three creditable additions to the Bird Sanctuary. Ready! Aim! Squirt!

Preparations are being made for our forthcoming Gold Rose Dance. From all indications it should really be great. Everybody has promised to get a date, and even Berg is going to try harder this time.

Virgin timber is timber which has never been axed.

Beggar—Have you got a nickel for a cup of coffee?

Miner—Oh, I'll manage somehow thank you.

PIKA Initiates 11 New Members; Several Pikers Lose Pins

This week-end the Pikers took into their bonds eleven new men. Those initiated were Gus Link, Frank Henninger, Harold Steinbruegge, Jim Pate, Al Wentz, Richard Anderson, Duncan Block, Art Kruger, Al Johnson, Frank Lockett, and Bob Carr. The members of Pi Kappa Alpha extended their congratulations to these new men, and wish them the best of luck in the years to come.

Another big event took place this busy week-end. Milton Smid became engaged to Miss Nancy Lee Kornfeld of St. Louis, Mo. Last week-end Jim Franklin pinned Miss Charlotte Coolier, both of whom are from St. Louis. Also on the pinning and engaging list is Don Pickering who pinned Miss Mary Lou Butler. Miss Butler is a student at McMurray College, Jacksonville, Ill. Congratulations to all of you.

Well little one it's time for another frantic story by yours truly, me! Once upon a time (about a month ago) a real wild kid by the name of Bob asked a cute young chick down for the business of celebrating what is, was, and shall be called St. Pat's.

She came down as advertised, and old Bob was making out with some real cool passion. Really not so cool, but I had to put it in to keep peace on the home front. Anyhow a certain 'bop' named Ray applied his lusty air of love to her, and succeeded in taking her crazy mixed up mind off the little one named Bob. This upset wouldn't have been so bad had Ray not made his play while the cute chick was exercising her ferlound over the phone to Bob. This of course was unknown to Bob. Again all wouldn't have been so bad except for the fact that Bob gave up his lunch to write her a sex letter. And her answer was like the end for Bob, and so it was. You see she wrote Ray instead!!! Frantic bugging to all — Scoff.

"I shall now illustrate what I have in mind," said the prof. as he erased the blackboard.

DARING AQUATIC RAID STAGED BY MEMBERS OF SIGMA PHI EPSILON

The "gentlemen" from the Sig Ep house did their best this past weekend to follow the advice in last week's Miner about having a big orange. It seems, however, that oranges are still a bit out of season and the by-word until further notice is "have a big lemon."

The freshmen did their best to revive the good old "J.S." days but, try as they may, could not match the cast iron constitutions of the old hands. Some of the more risqué members did display their intestinal fortitude by mutilating a picture of Marilyn Monroe during the course of the evening. It is rumored that Ron (My gun is quick) Rex has vowed to avenge the misdemeanor.

Sunday evening saw the Sig Ep house turned into an aquarium as the more aquatic members of our group turned to their buckets, cans, and hoses to officially initiate the coming of spring. The daring raid led by "Bubbles" Scharf was carried out without casualties.

"Bubbles" has already received several offers from the French government to assume command of forces in Indo-China and a bill is now before the senate to reward his heroism by decorating him with solid gold water wings.

It is rumored that Ron "Farfo" Alberter has flowered into manhood. Is that right, Ron?

Pre-Registration (Continued from Page 1)

REPEAT COURSES:

If a veteran student registers for a repeat course in order to raise his grade, this course will not count in the required twelve hours of new work for each semester for PL346 veterans or 14 hrs. for PL550 veterans in order to obtain full subsistence.

ON PROBATION:

A student on probation will be limited to 16 hours. A student on probation at preregistration may assume he will clear probation during this semester, but if he does not, he must adjust his schedule to 16 hours before final registration September 13. In case a student is readmitted by the Scholarship Committee on condition that he repeat certain courses, or is limited as to hours, he must follow these conditions regardless of consequences, before he will be permitted to register.

He: May I kiss your hand?
She: What's the matter? Is my mouth dirty?

Kappa Sig's Spend a Quiet Weekend; Some Go on Camping Trip

By O'Reilly and Shotrod

All has been quiet along State Street this past week... too quiet. Upon closer examination one could see that the balmy breezes of spring and Cupid have taken their toll among the Kappa Sig's. Dick Hirsch and Jack Beirne are wandering around with that dreamy, "She said yes", look in their eyes. The anticipation is just too much for Hirsch who is helping the days pass by sleeping two and three days at a time. "Resting up," says Dick!

Then we have Ralph Jones, that brave, courageous outdoorsman who ventured out into the great lake region of Missouri with those two irresponsible idiots, Harry Kruger and Donn Grunz. After the search-party pried Ralph from behind a boulder and carted him away to Veterans' Hospital, his only words were "Dinty Moore Beef Stew and please don't shoot me!" The doctors report his condition as fair and that only his rugged mental stamina saved him from a complete case of shell shock.

Congratulations to the softball team on their victory over Phi Kappa Alpha. It was a hard fought and well earned victory with Jim Stokes the winning pitcher. In the future however, we wish "Lightnin'" Bob Myers would tell someone when he wishes to be replaced instead of just wandering away.

Just a word to Jim Elswick... please, Jim, sell that (?) car. Everyone is on the verge of a nervous breakdown from the strain of waiting for it to run... if it ever will.

Coed: "I nearly fainted when the fellow I was out with last night asked me for a kiss."

EE: "Baby, you're gonna die when you hear what I have to say."
